

 CSCLED

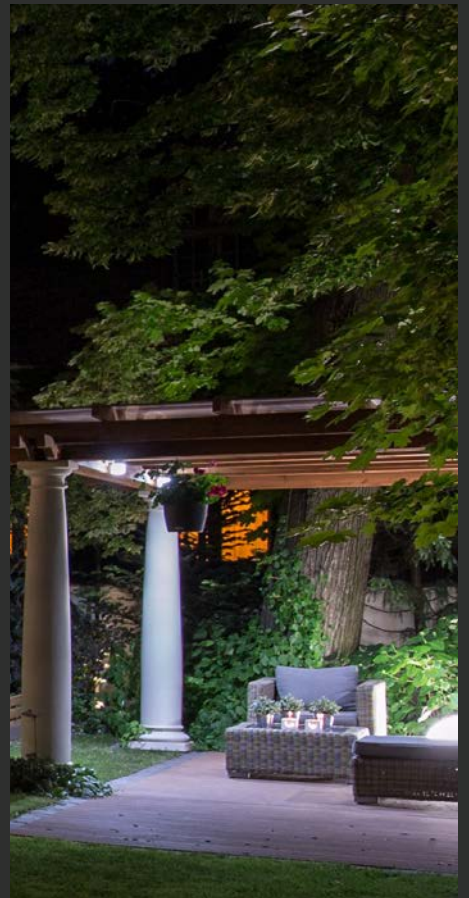

Celebrate Summer with

**SOLAR ILLUMINATION**

---

Utilize the sustainable power of solar LED and upgrade your outdoor spaces

## MARINAS

Whether you are a large marina or a small one, businesses of all sizes are seizing the financial advantages that solar power has to offer. Not only can it save money in the long-run, but customers may be drawn to businesses that put forth an effort to be sustainable.

Whether the CSC LED solar powered lights are mounted on the building, the dock, or posts, they can provide a reliable and easy to maintain option for marinas while looking aesthetically pleasing because of the lack of cords and wires.

## COTTAGES

Cottages tend to be a place that people use to escape their busy day-to-day lives and get back to nature. By switching to solar power at your cottage, you can truly achieve this. Not only is this lifestyle appealing to many, but it's a financially responsible decision for your home away from home.

With solar powered lights, you are no longer tied to paying high electrical bills for a property that may only be used seasonally. This also means that no matter how rural your cabin is, you won't be left in the dark due to unforeseen power-outages.

## PATIOS

Backyard lighting can extend the use of your patio and summer enjoyment with family and friends.

The addition of Solar Powered CSC LED lights will not only provide a beautiful illumination and ambiance to your outdoor space, but they can help provide a sense of security with their automatic on / off feature and built in motion sensor.

## Solar Wall Pack

5W | 5000K

## Solar Flood Light

10W | 5000K

Product #	SWP01-5W-50K
Power	5W
Colour temperature	5000K
Lumens	450 lm
Battery	5.5V replaceable, 2600 mAh
IP rating	IP65
Beam angle	120°
Detection angle	110° (<8 metres)
Housing	Black
Dimension	199 x 159 x 173mm
Warranty	36-month
Battery warranty	12-month

Product #	SFL-10W-7200-50K
Power	10W
Colour temperature	5000K
Lumens	1,080 lm
Battery	3.7V replaceable, 7200 mAh
IP rating	IP65
Beam angle	90°
Detection angle	180° (<8 metres)
Housing	Black
Dimension	300 x 215 x 35mm
Warranty	24-month
Battery warranty	12-month

NOT RECOMMENDED FOR SUSTAINED AMBIENT TEMPERATURES BELOW -20°C.  
MUST BE INSTALLED IN A LOCATION WITH ADEQUATE AMOUNTS OF SUNLIGHT.

IP65 Rating

Automatic On / Off

Motion Sensor

User Replaceable Battery

With quick and easy installation, and no cords or wires to get in your way, CSC LED's Solar Wall Packs and Solar Flood Lights are the perfect option to re-vamp your outdoor spaces.

# TOP REASONS TO GO SOLAR

## REDUCED ELECTRICAL BILLS

The cost of power is only predicted to rise in the future. Budget for the rising prices by switching to solar. In some cases, you can even be eligible for government tax incentives.

## IMPROVED PROPERTY VALUE

Your investment could continue to benefit you even after you decide to move. Solar lights can make your home more attractive to potential home-buyers.

## REDUCED CARBON FOOTPRINT

It may be easy to think that a few solar lights here and there might not make a big difference. However what a lot of people don't know is that every single solar light helps reduce carbon emissions.

## A STEP TOWARDS ENERGY INDEPENDENCE

Take your first steps towards no longer having to rely on utility companies. With solar power, you no longer have to worry about the cost of electrical bills rising.
