

Suspension Kit

For PLB Series Backlit Panels

Included in the Kit
Fixture Sold Separately

Max Hanging Length: 62 inches
Min Hanging Length: 12 inches

Excess aircraft cable can be trimmed off after desired length is set

Installation Instructions

- 1) Remove seismic clips from panel and retain screws.
(Fig. 1)
- 2) Using the screws retained in step one, screw the mounting bracket from PLB-SUSKIT where the seismic clip was removed.
- 3) Clip the carabiner hook on to the mounting bracket.
(Fig. 2)
- 4) Repeat steps 1-3 on all four mounting bracket locations.
