

A modern office interior featuring a series of long, slim, white LED strip lights mounted on the ceiling. The room has a minimalist design with light-colored walls and floors. In the foreground, there are three teal armchairs arranged around a small, low-profile coffee table. A large window on the right side of the room offers a view of a city skyline. A television screen is mounted on the wall in the background, displaying a list of names and dates. The overall atmosphere is bright and professional.

ST Series

STRIP LIGHTS

Easy to Use, Easy to Install

ST STRIP LIGHTS

KEY FEATURES

Power

20W
20W / 30W / 40W
30W / 40W / 50W
50W / 60W / 70W

Near Seamless Row Mounting**

PLUG & PLAY ROW MOUNTING

Enjoy effortless and hassle-free row mounting. With simple plug-and-play functionality, our quick-connect accessories make installation a breeze. Sold separately, our row mount kit offers a convenient and efficient way to set up your lighting system with minimal complexity.

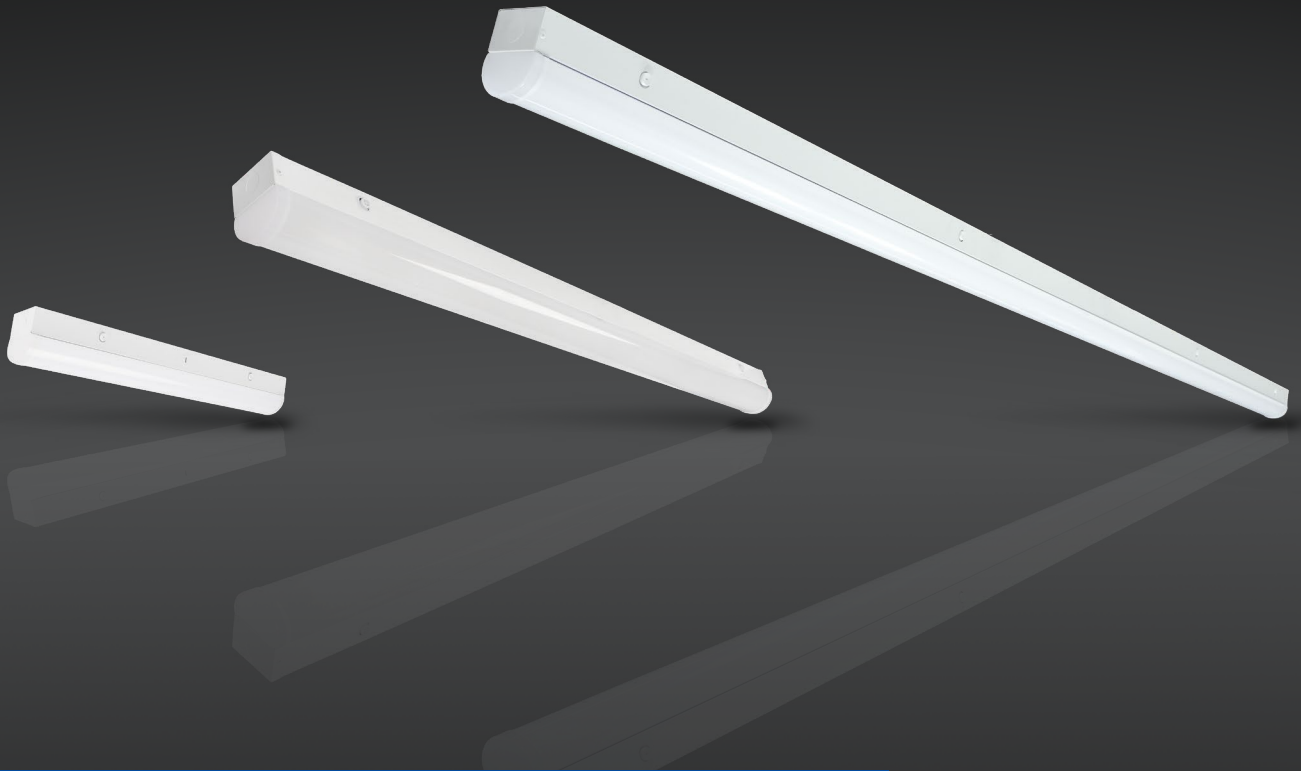

STREAMLINE YOUR SPACE

Our ST Series Strips enhance visibility in coves, general lighting, shops, and parking garages. For added convenience, select 4' models (-MS02-MW) include a preinstalled microwave motion sensor to save time on installation.

FLEXIBLE ILLUMINATION

These strip lights feature power and 3CCT selectability for flexible performance across a variety of applications. Lens can be suspended from the base using aircraft cables, allowing for faster, easier installation while delivering clean, uniform illumination.

ST STRIP LIGHTS

Our best selling ST series Strip Lights come in 2', 4', and 8' lengths crafted from high-quality materials for effortless installation and exceptional value. Our Strips come surface mount ready, with optional suspension kits sold separately.

Select 4' Models Complete With a Built-in Motion Sensor!
