

INSTALLATION AT QUEENSWAY CINEPLEX

Cineplex is known as the largest film exhibitor in Canada. That title comes with the responsibility of selling an exceptional theatrical experience to the 70 million people that visit each year. The experience starts the moment you drive into the lot and see the enormous movie billboard being illuminated on the building's exterior.

The Queensway Cineplex had previously been using metal halide lights and they were looking for a way to increase their energy efficiency and light levels, while reducing maintenance costs. In order to meet their needs, they had over 50 of CSC LED's Concorde Series Flood Lights installed.

The flood lights were mounted in a unique way, shining upwards to illuminate the walls using the standard trunnion mount that each fixture comes with. The Type 3 distribution on these fixtures also helped to create a distinctive and theatrical look which was desired by the customer.

As a result of the LED installation, it is expected that the Queensway Cineplex will be able to save over \$9,000 annually and receive more than \$4,000 dollars in rebates.

CONCORDE SERIES FLOOD / AREA LIGHT

- Sleek, Streamlined Design with Unsurpassed Performance
- Bronze Finish (select models available in white)
- Type III Optics Standard, Type V Available
- Complete with Trunnion Mount
- Pole Mount, Multi-Mount, and Slip Fitter mounting options available (sold separately)

150W | 5000K | 120-277V

FL04-150W-50K

Initial Lumens	19,818 lm
Efficacy	127 lm/W
Dimmable	0-10V
CRI	70
Operating Temperature	-40°C to 40°C
Weight	11.02 lbs
THD	15%
Power Factor	0.9

60W | 5000K | 120-277V

FL04-60W-50K

Initial Lumens	8,318 lm
Efficacy	133 lm/W
Dimmable	0-10V
CRI	70
Operating Temperature	-40°C to 40°C
Weight	12.78 lbs
THD	15%
Power Factor	0.9
